

MICHAEL FARADAY

1791 - 1867

Physics • Electricity
Magnetism • Chemistry

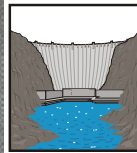

*World's greatest
experimental physicist*

Father of motor, generator,
transformer, electrolysis

Law of induction • Faraday Effect

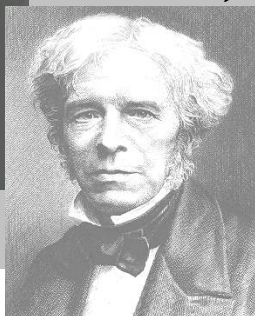

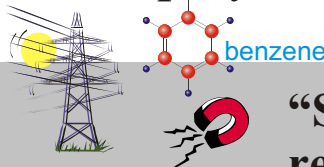

Two units in physics
named in his honor

farad (capacitance) • *faraday* (charge)

- Popularizer of science
Lectures • Stage demonstrations
- Faithful in his church

“Faraday is universally accepted as one of the greatest physicists of all time Yet this great man was one of the most humble and sincere Christians one could ever find. His family was desperately poor, yet deeply spiritual He had an abiding faith in the Bible and in prayer.”

– Dr. Henry M. Morris

“Speculations? I have none. I am resting on certainties. ‘I know whom I have believed, and am persuaded that he is able to keep that which I have committed unto him against that day.’”

– Michael Faraday
